We were all a little discouraged by the "audit" report that came last week clearing Charles Walker. What a farce. Guess our Governor is a pretty powerful man and he needs allies like Walker. So, it's up to us to take Walker out. We have a very strong, moderate candidate running against him in Augusta named Randy Hall. He's a local attorney with strong Augusta roots. Randy has received enormous support from the white community in Augusta and surprisingly welcome support from a good % of the black community in Augusta, especially from some of the largest and oldest black churches. They have a very good strategy in place and are working very hard, but who knows if it will be enough. Randy could use all the money and help he can get.

The timing of your email is ideal as I have been talking to a young guy from the NRCC who is in Atlanta this week doing research on Walker. He's trying to tie Walker's business corruption to his son Champ who is running for Congress in District 11. He's very interested in talking to anyone that may have information that is helpful in building his case against Walker. Would you be willing to talk with him? I could send him your email, or send you his?

Glad to be in contact. Thanks for being so diligent in tracking me down . . .

Morgan
